

Minden Seniors player Rhonda Wilson kicks up a cloud of dust and sand as she slides safely home (beneath the outstretched arm of Wilberforce catcher Rhonda Walsh.) Minden won the game played Monday night by a score of 18-11. For more ladies baseball results, please turn to page 11.

Hall's Lake proposal meets stiff opposition

The proposed development of a trailer park in Stanhope Township has been met by strong opposition from cottagers on Halls Lake.

The development calls for the creation of approximately 100 trailer lots on land owned by Doctor Tom Offen. The site is situated on the north shore of Halls Lake near the junction of Halls Lake Road and the newly constructed County Road 13.

The municipal council received notification of the proposal from Doctor Offen in June.

When Council held their regular meeting on Wednesday, July 10 over 40 people attended to protest the establishment of the park, forcing council to hold the meeting at the Stanhope Firefighter's Community Centre to accommodate the large group of area residents.

Reeve Harry Davis opened the discussion by explaining that a similar proposal made in 1977 had been rejected by Council. He said that Council at that time felt a bylaw amendment was necessary and that following many letters of objection the proposal was dropped.

In 1980 a second proposal was made and tentatively approved by council because the land was zoned seasonal commercial allowing for the establishment of a trailer park but this proposal was also dropped.

Reeve Davis noted that the trailer park does conform to the zoning set out in the current comprehensive bylaw and will also conform under the zoning (Recreational Commercial) of the comprehensive zoning bylaw which has received first reading at council and which is expected to be passed later this summer.

A public meeting concerning the bylaw will be held on August 24 at the Community Centre.

Reeve Davis concluded his brief history by noting that "once the bylaw has been passed by the Ontario Municipal Board, Council cannot fight it."

David Greenhow, a neighbour of Doctor Offen, told Council that he had heard that 100 trailer lots would be created and that he objected to the heavy concentration of the lots.

cipality is not required to notify residents of the area since the proposal does not call for a zoning change. He added, "The proposal only came to Council in June 1985 and at this stage is only a verbal proposal."

Another resident of Halls Lake argued that numerous bylaws have been passed restricting cottagers, "...but there is no reason council cannot pass a bylaw to stop this concentration." He said the trailer park will mean an increase in boat traffic, dogs and pollution in a high density area.

The comment on pollution prompted another resident to question whether soil tests have been done on the site, noting, "The clay pan means there will be runoff into the lake."

He was told by the clerk-treasurer that, under present bylaws, soil tests are not required, adding that under an official plan such tests might be required but the municipality cannot afford the estimated \$600,000 cost of an official plan study.

His comments were followed by a statement from a resident, "I don't see how it is possible that approval can be given by anyone, the OMB or Council, because of the possibility of pollution."

Conflict of interest

He then asked if any member of council had a conflict of interest in the matter.

His question prompted Councillor Ann Barker to comment, "Some letters we have received have contained innuendo that Council has something to gain. I strongly object to those suggestions."

Several other residents expressed concerns over possible pollution arguing that the increase in boat traffic would have a serious impact on the lake which already has many resorts, cottages, lodges, a park and boat launching site. One resident said that no one objects to a small operation, but argued, "It is unbelievable that this density could come on such a little lake."

Another said that he would probably not be

Lower water levels requested

Anson, Hindon and Minden municipal council is being asked to lobby for reduced water levels in the Gull River watershed north of the village of Minden.

The request was made at the regular meeting of

council on Thursday by Phil Graham of Minden, a member of the Haliburton Highlands Water Level Committee. Commenting on the report released by the committee in September 1984, Graham said there

were aspects of the report that he, "Absolutely disagreed with."

Graham said he believed there were two factions involved and they should work out an agreement with the Trent Severn Waterways, the organization that controls the water levels. "The municipality wants low water for flood control...but the cottagers want high water in the lakes north of Minden," he said. "When the lakes are full in the spring, we get the excess runoff and no control in the case of flooding."

Graham said he agrees with the former minister of Natural Resources Alan Pope, who said that recreation was important but flood control must have priority.

Graham criticised the present system of regulating water levels noting that data is supplied to the computer which then uses the information over the next two weeks to determine whether stop logs be removed or left in place in

someone in the Minden area should be making daily reports to the Trent Severn Waterways.

Returning to his prior comments on spring water levels Graham said the levels were being kept high on the request of the cottagers' associations and that according to the superintendent of the Trent Severn Waterways, the lake levels could be kept lower in the spring.

By removing one stop log the lake levels might drop 10% allowing for better flood control without

creating problems for the Trent Severn system he said.

He asked council to draft a letter to the County of Haliburton asking that consideration be given to keeping the lake levels lower. The letter later could be forwarded to the Trent Severn Waterways.

He concluded by predicting "If we have a heavy snow runoff and a heavy rain, we have had it."

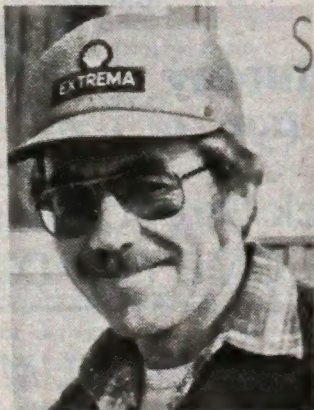

Council agreed to ready the full report prepared by the HHWLC and will add their own comments.

dams throughout the system. He suggested that

Sid Stamp

The community was saddened by the loss of one of its most active and involved members this past week. The death of Sid Stamp at age 39 in an automobile accident, was felt in many parts of the community.

Mr. Stamp was a successful businessman who operated Sid Stamp Fuels Limited, the distributor of Shell Oil products in Haliburton County. Through his business, he met many individuals throughout the community, quickly establishing a friendly rapport with his congenial and easy-going

Sid Stamp.

Pollution, crowding - Hall's Lake concerns

(from page 1)

allowed to sever his land and build another cottage, yet the trailer park was being allowed, adding, "It is not morally right to allow something of this density. I cannot understand why this could go through without an environmental study. We must think of the long term effects."

Response

In defence of the proposed trailer park, Doctor Offen said that no one was more concerned about health and pollution than himself. He said that he had done everything "according to the letter of the law". He explained, that although he has not made final plans, the proposal calls for the creation of approximately 100 trailer lots that will be sold under a licence of occupancy.

A health inspector had visited the property, he said, and stated that the site, "seemed alright," and that plans were currently being drawn up for a septic system that will service each trailer. He noted that the smallest lot will measure 30 feet by 75 feet which exceeds the minimum requirements and, the development will meet all zoning regulations.

Offen added, "The people who live in the trailers will have to live under tighter constrictions than you will," noting in reference to criticisms of increased boat traffic, "there will have to be restrictions on the number of boats".

When asked how he could sell land to a client but restrict the use of a boat,

Doctor Offen answered, "I do not have all the answers or all the details worked out," but said there would be restrictions. "It is not possible to have 50 boats on the site," he said.

He added that while he did care about the other cottagers on the lake, none of the critics of the proposal seemed concerned about the benefits of the park to the permanent residents and the people who would be using the facility.

His comment, "It seems you don't want anyone else in the world to use Halls Lake," was criticised by a number of the residents,

including one man who said, "We don't want 400 people there."

Council was then asked if they had the power to stop the development by refusing building permits.

The clerk-treasurer responded that if the setbacks, lot size, frontage and environmental requirements were met, "council does not have the authority to stop the development."

The statement prompted one gentleman to respond, "In other words even if 100% of the people on the lake are opposed, we can't do anything."

The clerk-treasurer re-

plied that the objections should have been made in 1977 when the zone change came into effect.

Following more discussion one resident summed up the situation by noting Council's hands are tied. We cannot expect them to stick their neck out to go against their own bylaw. We can't ask Council to stop this. They can't," he said, adding that the residents would have to, "appeal to Doctor Offen's good sense."

Willing to meet

Following these comments Doctor Offen said that he would be willing to meet with a representative of the cottagers to discuss the proposal. His suggestion was backed by Reeve Harry Davis, who said a representative should be appointed.

The protesters agreed to continue the meeting to discuss further action. Just prior to the adjournment, a comment on lake pollution prompted Councillor Dale MacDonald to point out that there is raw sewage in Halls Lake at present. "You are concerned about the pollution from the trailer park, but right now people are dumping dish water and human waste into the lake," he said, adding that the cottagers should be addressing

the existing pollution problem.

At the adjournment of the meeting Doctor Offen was asked who would be using the trailer park. Offen replied, "three groups of Christian people," want their own set up on the property to meet together adding, "some people of a different race" had approached him but he had not sold property to them. "I

thought of you people," he said.

While the regular Council meeting reconvened at the municipal council chambers, the residents continued their meeting at the Community Centre.

According to a spokesman for the group, a committee was formed to deal with the issue and that a decision was made to seek legal advice.

Car accidents claim three lives

Two employees of the Quanafor Ringette Camp on Koshlong Lake were killed in a car accident late Tuesday night (July 9).

The two, Monica Anna Bresolin, 17 of Hamilton, and Pamela Corbett, 17, of Kenora, were killed as they stood at the side of County Road One, one and a half kilometres south of Highway 121, near Haliburton Village. A third individual, also an employee of the camp, is in critical condition at Sunnybrook Hospital in Toronto. Brigid Ellen Bernade, 21 of Thornhill remains in a coma following the mishap.

According to a report prepared by the OPP, the three were standing on the shoulder of the roadway and the adjacent ditch along with the driver of the vehicle, Robert Smith, 42, of Thornhill and one other passenger at 11:35 p.m. The vehicle they were travelling in was parked with its headlights on, on the shoulder facing oncoming traffic.

A 1969 Camaro, driven by Gregory Kennedy, 24 of Dysart Township, approached the parked vehicle, from the front and attempted to serve around it to the right. In doing so the left front corners of the two cars met. However, the Camaro continued past the parked car, striking three of the individuals at the side of the road.

Kennedy has been charged with impaired driving.

Constable Jim Solway was the investigating officer. Dr. Harry Good was the attending coroner.

Single car fatality

The 16 year old driver of a 1978 Chevrolet is dead following a single car accident on Highway 121 east of Haliburton Village. Dead is John Daniel Burton of R.R. 2, Haliburton.

According to the police, the youth was eastbound when he apparently lost control of the borrowed car. It crossed the westbound lane and entered the ditch striking a driveway embankment. The driver was thrown out of the car and sustained fatal head injuries.

The accident occurred at 3:10 p.m., July 10.

The investigating officer was Constable Dave MacMartin. The coroner was Dr. Dean Stokes.

Injury

A charge of careless driving has been laid against a Dysart resident following a personal injury accident on Highway 121 in front of the Haliburton Highlands Secondary School. The mishap occurred July 10 at 1 p.m.

According to the police, Dorothy Braithwaith of St. Catharines was knocked to the ground and sustained minor injuries after being struck by a vehicle driven by 37 year old Janet O'Neil of Dysart. She was in the process of turning left onto the highway from the high school driveway and apparently failed to see the pedestrian.

Braithwaith was treated and released from Haliburton Hospital.

The investigating officer was Constable Wayne Smith.

Allen Bull of Curry Motors drags the twisted remains of a car from the spot where it landed after leaving Highway 121 west of Haliburton. The crash resulted in the death of 16 year old John Burton the only occupant of the car at the time of the single vehicle crash.

Council concerned

Stanhope Council has received several complaints of rowdiness and excessive noise from residents of the area near the intersection of Walkers' Line and Buckslide Road.

At the meeting of council on July 10, a letter from Tom Moffat, owner of the Twin Rocks Resort, was read complaining of noise late at night and excessive drinking by young people on a property near his resort.

The letter noted that neighbours in the area were upset over the noise adding that his guests felt intimidated as they drove past the scene of the party.

Mr. Garth Pain supported the comments in the letter and said people attending the party had been "playing chicken" on the Buckslide Road. He told council that when he phoned the Ontario Provincial Police he was told that an officer was not available to investigate.

He pointed out that the OPP does not enforce noise bylaws but will assist Bylaw Enforcement Officers. "We

can't expect (Bylaw Enforcement Officer) Jim Moore to go in there by himself. He needs witnesses with him and he needs help." Mr. Pain suggested the township appoint someone to assist in enforcing the bylaw. He added, "Families in the area are afraid."

Reeve Harry Davis commented, "The OPP is short of staff and tied up because of cutbacks." "They are concerned with more serious crimes...hard crimes," he said, adding, "If the officers are on the other side of the county, the detachment cannot send a man over to investigate."

Tom Moffat commented, "In defence of the OPP...they did send an auxiliary OPP up on Sunday night. People were told to keep the noise down but the party kept on."

He added, "A lot of people around there are intimidated and scared." Reeve Davis said he would speak to Sergeant Bailey of the Minden detachment concerning the residents' complaints.

Look before you lick

A shortage of stamps is causing problems for a number of area businesses and others using the postal service.

The shortage has arisen since the new postal rates went into effect June 24. Surprisingly, it is the smallest denomination stamps which are causing all the problems.

Businesses caught with a large supply of 32c stamps when the rate was increased to 34c have been trying to purchase the one and two cent stamps so they can use the now dated 32c stamps. However, the demand has been so great that the local post offices are unable to keep the smaller denominations in stock for very long.

The shortage appears to be more than a local phenomenon, however. The postmasters of area facilities are having problems getting the small denomination stamps from the postal supply depot. Orders for the one and two cent stamps are being returned unfilled or half-filled as post office officials scramble to meet the sudden surge in demand for the stamps.

A spokesman for the post office in Toronto agreed that there was a shortage of the small value stamps because of the rate change. However, a second representative in Ottawa felt it was a localized situation.

For the moment, however, businesses and individuals holding 32 cent stamps would be wise to not lick and stick them to their letters unless they have the extra 2c stamps in hand. Otherwise they may find themselves at the post office with mail that does not have sufficient postage and no easy or inexpensive way to rectify the situation.

Proceed with caution

Stanhope municipal council should proceed with a liberal degree of caution in its consideration of a major development for Hall's Lake. According to information provided at a public meeting last Wednesday, the proposal calls for the development of a one hundred site trailer park on approximately 14 acres of land.

The land in question is properly zoned for the development and it fronts on County Road 13, so access is not a problem. However, the major portion of the lot in question lies behind a row of ten or more lake front properties, most of which are already in use as cottage lots. The trailer park residents will share a lake access point, which is part of the development lot, of 300 to 400 feet.

What is of particular concern in this case is the potential of an additional 100 new cottages on a lake which probably has one of the highest development densities in the Highlands. There are not many vacant pieces of property fronting on Hall's Lake.

We think as well, that concern should be given to what is, to a degree, backlot development of this magnitude. Backlot or second tier developing has been resisted in the past in various areas of the county, and rightly so. It tends to create problems as those with property one row back from the waterfront, attempt to gain access to the water, a natural desire in a recreational area such as ours.

It is difficult for the municipal council not to give permission for a commercial development on this property, as it meets the zoning requirements. However, they also have a responsibility to protect the interests of those property owners already on the lake and ensure that new lake developments do not create a situation which will be unacceptable to both the present property owners and those who may become cottagers on Hall's Lake.

Summer cones.

Job assistance grants

- by Bill Scott, M.P. -

As a result of widespread input, the Hon. Flora MacDonald recently announced the Canadian Jobs Strategy. It is a complete redesign of the government's labour market programs and a fundamental change in the way we develop and invest in our most important resource, the people of Canada.

All programs bring together training and job development backed by long-term federal funding and a network of community-based local advisory councils. Each one addresses a specific problem and allocates funds to help those in greatest need.

The Skill Investment program has an allocation of \$100 million this year to ensure Canadians can train for the future before their existing skills become obsolete due to technological change. Training options include skill development leave; measures to assist training in small business; and training trust funds so employers can work together to provide for their future training needs.

The Job Entry program has an allocation of \$350 million this year. It will make it easier for young people to move from school to work and for women to move from work at home to paid employment. A combination of work experience and training will be provided for up to 52 weeks by individuals, business, labour, community groups

and the public sector.

The Job Development program has an allocation of \$700 million this year to help those experiencing long-term unemployment. Projects can last up to 52 weeks and will combine training and work experience. Sponsors may be individuals, community groups, businesses, voluntary associations and municipalities.

The Skill Shortages program will allow employers to train Canadian workers on and off the job in skills that are in demand. With an allocation of \$50 million the federal government will partially reimburse employee wages during training and cover many of the employer's direct training costs.

Innovations has an allocation of \$100 million in 1985 - 86 to inspire pilot projects which offer new ideas and solutions to keep the Canadian Jobs Strategy current.

The Community Futures program, with an allocation of \$150 million is designed to help communities which could be hard hit by plant closures, mass layoffs and chronic unemployment. A "single-

window" approach will be combined with measures to anticipate change to ensure declining one-industry towns receive community-based job development opportunities.

Persons on part-time courses will now also be eligible for training allowances. The dependent care allowance will now be available to anyone who needs it, including part-time trainees.

I am particularly pleased that the Minister has instituted Local Advisory Councils. I have long advocated this as I know they do provide an excellent link between a national employment plan and one which meets the needs of the community.

Increased training allowances will make sure that all those who need training have access to programs. They will especially benefit women with small children who have been unable to take training courses because of inadequate allowances. Weekly allowances will depend on the number of training hours. For example, if a course takes 30 hours per week, the changes will be as follows:

	Old Allowance	New Allowance
Participant lives at home of parent/spouse whose weekly income is greater than \$210	\$25	\$52
All others	\$70	\$105
1 dependent	\$100	\$126
2 dependents	\$115	\$137
3 dependents	\$130	\$147
4 dependents	\$145	\$158

outdoors

Federation of Ontario Naturalists

It's early morn; low golden light plays long shadows across the lakeshore. Skimming across the reed tops comes the winged formation. Silently they appear; 4-winged craft adorned with vibrant green and blues, or with magnificent camouflage mottling. Off they peel, into a crisscross dogfight. Low. High. Back and forth they race, in wild zig-zag pursuit of dastardly prey. The dogfight continues from dawn to dusk, joined by new craft as others, exhausted, pause to rest.

Dragonflies are an aptly named - large - group of insects. Including their close allies, they number over 4800 species - 420 in North America alone.

The dragonflies now emerging are at the midpoint of a fascinating lifecycle. Over the next several weeks, we'll see adults mating - riding piggyback often for a day or more. Fertilized, the female will begin to mature a huge number of eggs - over a period of days to weeks - which then will be deposited into the perfect habitat. Depending upon the species' requirements, the eggs may be laid in marshes, on aquatic vegetation or in open water.

If you watch carefully, you'll see the most common laying flight. The female flies slowly across the open water of a marsh, hovering stationary and then suddenly dipping to touch her abdomen against the water. Each egg, so deposited, is gelatinous, sticking to vegetation or other debris.

The eggs develop and hatch quickly, releasing a tiny, long-legged creature, whose complete leg-span is barely the size of a pin. Over the next 1 to 4 years (depending on species) that nymph will go through a dozen or more growth-molts before reaching adulthood.

Dragonflies are fantastically adapted, predatory bullets. Although they spend most of their time invisibly marching the bottom in slow-motion, their stout torpedo form, enables quick movement whenever necessary. By expanding and compressing their abdomens, dragonflies actually breathe water through their anus, in and out of a complex branched structure known as an anal tree. This gill-equipped structure provides not only oxygen, but also jet propulsion. When prey looms ahead (or danger threatens), the motionless nymph 'inhales', filling the anal tree to the maximum, then suddenly compresses its abdomen, jet-propelling itself forward.

As it does, the nymph opens remarkable trap-jaws.

Stephanie leaves for year in Denmark

The Rotary International Exchange program offers students from throughout the world a unique opportunity to visit other lands.

A number of students from Haliburton County have participated in the program and members of Rotary International in Haliburton and Minden have acted as host families to students from foreign lands.

On Wednesday, of last week, Stephanie O'Brien of Ingoldsby travelled to Denmark to begin a year long stay in that European country. On Sunday, Stephanie took time from her preparations for the trip to talk to The Times about the upcoming year.

The 16 year old grade ten student at Haliburton Highlands Secondary School was one of two students to apply for acceptance to the program and the third member of her family to do so. "Both my older brother and sister have applied to the program in the past and even though they weren't accepted, they were able to help me with the application process," she said.

She explained that each

applicant lists three choices of countries they wish to visit. Stephanie chose Australia, Sweden and Denmark, noting that she chose Denmark because, "My aunt and her mother are from Denmark. That fact influenced my choice, plus I have talked to a lot of people about my choices, and they told me that Denmark was a very nice country." Stephanie applied to the program in September, was informed in December that she had been accepted, then told in May that she would be visiting Denmark.

To prepare for the trip, she sought advice from Anna Kvist, an exchange student from Sweden who has attended HHSS during the past year. "I asked Anna a lot of questions about the country and she helped me a lot," Stephanie commented, adding that she plans to visit Anna in Sweden during the next year, and that they have already made plans for a trip together through Europe.

Stephanie has met other exchange students as well. Rotary International organized conferences in Ottawa and Collingwood for students visiting Canada

Stephanie O'Brien is the latest Haliburton Highlands high school student to leave for a year overseas as part of the Rotary International youth exchange program. She will be spending a year in Denmark.

and for those Canadian students who will be travelling abroad. "I met two students from Denmark who are staying in Hamilton and Peterborough and talked to them a lot about the country. They answered a lot of my questions and helped me try to pronounce some Danish words," she said.

Shortly after Stephanie arrives in Denmark she will be spending two weeks at a university in company with other exchange students to familiarize herself with the country.

Then by the end of July, "I will be attending grade ten, which is the year I just completed. They say it is much easier to repeat. I will be going to a school for 16 and 17 year olds for the first half of the year then for the second half I will be going to a regular high school where I can attend any grade I want," she commented.

Stephanie explained that the reason she will be attending two different schools is because she will be staying with three host families in different parts of the country during her stay. Stephanie added that she is

not bothered by the fact that she will miss a year of school here. The education she receives in Denmark will not count toward her high school certificate, but she commented, "I will miss all of my friends."

She expects the experience will help her decide on her future career. "In terms of the future, I think a year away will help me, actually. That was another reason why I wanted to go away. When you are in school you don't get a chance to think about your future. Even though I will be quite busy, I will have more time to think about my career and I will be able to see a lot of examples while I am away. Basically I want to go into something dealing with languages."

During the past year The Times has been publishing letters from Greg Pearson of

Minden who has been an exchange student in Brazil. Stephanie said that she has found Greg's accounts of life in South America to be very interesting and enjoyable and said that she hopes to be writing to The Times of her own experiences in Denmark over the next year.

Stanhope dogs beware

The Township of Stanhope has appointed two assistant Bylaw Enforcement Officers following numerous complaints of dogs running at large in the township.

The complaints were brought to attention of the municipal council at the meeting on Wednesday by Councillor Ann Barker.

Councillor Barker report-

ed that she had received a number of complaints from concerned residents of the area concerning dogs running loose. She said that one resident reported that a dog had, "ripped its way into a child's pup tent," and that there were concerns that the dogs would injure children in one neighbourhood.

She noted, "People are leery about catching these dogs because the dogs might

turn on them," adding that one person has been attacked. She noted also that there are reports of a dog in the area which has been attacking deer and said, "People are going to get up in arms about this."

In response to her concerns Council appointed Dan Harding and John Muise to act as assistants to the Bylaw Enforcement Officer Jim Moore.

letters

Editor:

The most valuable asset of Haliburton County must surely be the scenery; the endless, ever-changing vistas of lakes, rocks, trees and hills. But, over the years, there have been blights develop to scar these priceless gifts. Elm trees have gone, sugar maples look sick, and many are dying. Rock cuts, and natural rugged granite outcroppings have been defaced with spray paint. The roadsides are defaced with broken, fading and decaying signboards promoting non-existent summer accommodations or failed restaurants - a really sorry sight.

My husband and I were not able to visit our cottage on Halls Lake this season until July 4. I was angered to

find one of these man-made blights, a large sign, very cunningly placed, after the departure of cottagers for the winter, on the Ministry of Transportation right-of-way (i.e. highway allowance - Highway 35), at the edge of my woodlot property between the highway and Halls Lake. This sign promotes the virtues of shopping for, or listing your properties with, a certain individual acting on behalf of a real estate firm with one of its offices in Minden. The space is leased from the M.O.T. for \$64 or so a year. Legal, I suppose, but an ugly defacement of my property fronting on the highway, and a discourteous, high-handed act, none-the-less, by someone who has been elected to serve the best interests of ALL the residents of Stanhope Town-

ship, and whose permanent home makes him our neighbour.

My other neighbours, summertime residents as I am, presumed that I had agreed to the erection of this piece of commercial blatancy. I had not.

Mr. Editor, I happen to believe an ugly, commercial sign in front of my beautiful trees on that stretch of Highway 35, is an intrusion onto and defacement of my land adjacent to the highway.

Thank you, Mr. Editor, for allowing me to express my anger at the lack of common courtesy to me and my family by our neighbour. Incidentally, the land at Halls Lake has been owned by my family for 49 years.

Joan Farr Speed,
Toronto and Halls Lake.

Power dam study continues

A proposed feasibility study into the construction of a small generating station at Buttermilk Falls in Stanhope Township has been postponed pending a private review.

The municipal council approved the study, subject to government funding, at a council meeting earlier this year following a presentation by a representative of the SNC Group, one of the largest engineering and project management companies in Canada.

Council was told that the water flowing through the site at Buttermilk Falls could be harnessed to provide electric power that could be connected to the nearby Hydro lines.

Funds were available, council was told, to cover 90% of the costs of the study. The remaining costs would be absorbed by the firm.

At the meeting on July 10, council received confirmation from the Director of Operations of SNC that the Ministry of Energy had agreed to provide \$22,500 of the total cost of the study estimated at \$25,000.

Council was prepared to approve the study but agreed to allow Mr. Bev Robinson to review a preliminary proposal. Mr. Robinson was attending the meeting on behalf of the Boshkung Lake Cottagers' Association.

Mr. Robinson is a physicist who has worked

for Ontario Hydro as an engineer dealing with the industrial marketing uses of hydro power and has served on the Haliburton Highlands Water Levels Committee.

Robinson said the small turbine was only one aspect of the project and that the line connecting the turbine to the Hydro power line would be quite costly to install.

He noted that Ontario Hydro had no real need for small generating stations, but had been forced by public pressure to consider them as an alternate source of power.

He said that his main consideration was the impact the station would have on Buttermilk Falls if

water had to be directed through a pipe from the head of the dam to the turbine. "You must take a careful look that you will not be destroying the site," he said.

Councillor Ann Barker said the preservation of the falls was council's main consideration. "We don't want any change to the site," she said, adding that consideration had only been

given to the study to see if the project could generate revenue for the municipality by selling power to Ontario Hydro.

Mr. Robinson agreed to review all preliminary information on the proposal and report to council at the regular meeting in August.

Outdoors

(from page 4)

The main jaws swing out sideways, like a toothed bear trap. But there are also parts which open down, which can slice through the water like steel arms to lock the prey. Dragonfly nymphs eat anything which they can catch, including large number of mosquito larvae.

Feeding voraciously through the summer, they grow steadily, slowing down or hibernating in bottom mud or beneath rocks in the winter.

Finally they're ready for emergence. The stubby nymphs seek out anything that will emerge above water - stems, docks, or pieces of wood - and haul out, often at night. After a short rest, a transformation more dramatic than frog to prince actually takes place. The nymph's back splits to reveal a whole new animal inside

the old skin-shell. Arching its back through this hole, the adult pulls out its head, then its abdomen. Hanging vertically it pumps up 4 beautiful, lace wings, and drapes them back to dry. Within hours, it will be on the wing, ready for a completely different life.

The long legs, totally transformed, will become a net for catching mosquitos and other insects on the wing. The huge eyes, projecting like aircraft gun turrets on each side, will provide not only vision in every direction - at once! - but also hundreds of simultaneously analyzed images. Colouration will attract mates or provide camouflage, as the species needs.

Important in controlling mosquitos, dragonflies are a marvel to behold. Have a new look at a 'friend' long taken for granted; you'll find a sense of marvel.

LEGISLATIVE ASSEMBLY OF ONTARIO

A Committee of the Legislative Assembly of Ontario will meet to consider Bill 30, An Act to amend the Education Act, during July and August, 1985, in Room 151, Legislative Building, Queen's Park, Toronto, in Windsor, London, Kingston, Ottawa, Thunder Bay, and Sudbury and in certain other locations throughout Ontario.

Written submissions are invited from individuals, groups or organizations wishing to comment on the above-noted Bill. All briefs should be deposited with the Clerk of the Committee not later than Friday, August 2, 1985. Requests for the oral presentation of briefs should be directed immediately to the Clerk of the Committee for consideration of the Committee.

Copies of the Bill are available from the Ontario Government Bookstore, 880 Bay Street, Toronto, Ontario M5S 1Y8 or through the mail order service, Publications Centre, 880 Bay Street, Toronto, Ontario M5S 1Y8. 416/965-6015.

Tired but happy, this group of 16 cyclists arrived in Minden Saturday evening after completing the ride from Toronto. Dubbed the Ride for Pride, the annual event provides the cyclists with an interesting challenge and a good reason to hold a reunion.

Council briefs

Items from the July 11 meeting of Anson, Hindon and Minden council.

Council was notified that the 1980 GMC cab and chassis tendered by Brant Stamp had passed inspection by members of the Fire Department and was being outfitted with the water tank from the old tanker truck.

Council had accepted the tender for the vehicle at the June 27 meeting subject to final inspection and approval by members of the fire department.

Councillor Dave Stevens told council that the vehicle was more than adequate to serve the department's needs.

Permits up

According to Bylaw Enforcement Officer Dick Schell, building permits in the municipality have more than doubled compared to the same period last year.

Schell reported that 115 building permits have been issued in the first six months of the year for a total value of \$1,076,725 and that four more permits have been issued during the first two weeks of July for buildings in the village of Minden.

In the first six months of 1984, 49 permits were issued for a total value of \$1,399,540. This included the Staunworth Court Senior Citizens Apartments which cost \$600,000 to construct.

In his report to council, Schell also noted that welfare payments in the first half of the year have increased significantly.

Donations

Council approved a donation of \$750 to the Central Ontario Disaster Fund.

Members were responding to a letter from the fund organizers pointing out that damage caused by the tornadoes that struck the

Barrie region on May 31 had caused \$150 million damage but insurance was expected to cover only \$65 million.

Councillor Gary Kenney suggested a donation of \$500 but when informed that the Municipality of Dysart et al had donated

\$1000, he raised the donation to \$750 and council approved the motion.

McKnight Drive

After going unnamed for nearly two years, the newest street in Minden has been christened by Anson, Hindon and Minden council.

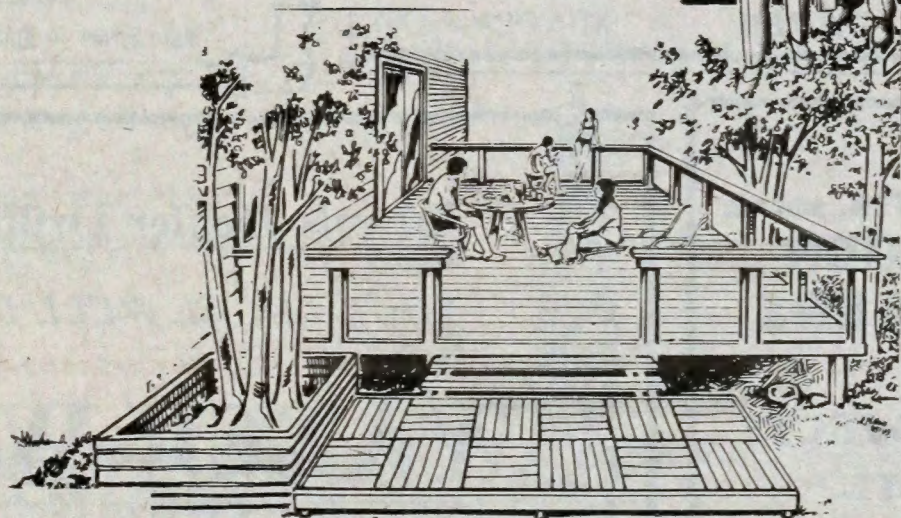

On Thursday, July 11, council passed a bylaw to officially name the street McKnight Drive in honour of Reeve Lyle McKnight. The street which joins Anson Street and Bobcaygeon Road has been referred to as McKnight Drive by council members for some time.

Split could hurt hill climb participation

Individuals interested in seeing high professional motorcyclists from the United States and Canada competing in a hillclimb at Wilberforce may be disappointed this year, according to Canadian champion John Williams. The top calibre racer says a disagreement between him and the owner of the hill near Wilberforce where the event is held, Bill Thomas, has resulted in Williams withdrawing his support and participation from the event.

According to Williams, the professional riders from the United States have also withdrawn from the race.

The event, being promoted at Bill's Hills on the Thomas property, however, still has the sanctioning of the Canadian Motorcycle Association and therefore those taking part will be vying for the Canadian

championship.

Williams, who has been a major driving force behind the annual hill climb in Wilberforce, refused to discuss the nature of the dispute with the property owner, other than to say he found himself in an untenable position with Thomas and was forced to withdraw his racing team and support from the event.

With his withdrawal from the event, Williams said he expected the purse to be much smaller as well. He noted that last year the riders were vying for \$15,000 in prize money.

Williams said he was appreciative of the support and help received from residents in the Wilberforce area including hill owner Bill Thomas and his wife Jan. He said their backing in the initial stages helped to get the event off the ground. He said he was disappointed

to have to abandon the hillclimb but said he was interested in finding an alternate site for the event next year.

Bill Thomas, the owner of the property where the hillclimb takes place, disagreed with Williams' comments about the U.S. professional drivers. "We haven't written them off yet," he said in an interview

Tuesday afternoon. He said he was still talking terms with the drivers and was, "Pretty positive we will have a big group of participants." He said the Alberta hillclimb champion would be attending the Wilberforce event.

Thomas said the purse for the event was reduced to \$4,000 because most of the major sponsors had

withdrawn their support. Thomas, who has been working on the hill during the past few days, said, "It is up to John (Williams) if he wants to attend and take

part." He noted the hillclimb will still have the sanctioning of the Canadian Motorcycle Association.

"We're still here and ready to go for August 17," Thomas commented.

Final week for ladies baseball

On Monday July 8, Wilberforce travelled to Minden to play the Dixie Lee team. Despite a perfect night at the plate for Kris Storey of Wilberforce, who went 5 for 5, the Minden team won. Joan Alger scored a triple to help the winning side. The same night the Haliburton Seniors bettered Gooderham 20 to 8. Bonnie Pettit and Laura Thorne had a good night at the plate for Gooderham. Ginny Hemming played a strong game for Haliburton.

The next night the Haliburton Juniors defeated the Minden Juniors in Minden.

In Gooderham the home team came up with a strong effort defeating the Minden Seniors 18 to 4. Karen Dewey pitched well for Gooderham and the team effort was aided by the good hitting of Honey Billings and Anne Marie Simmons.

On Wednesday night the closest contest of the week was played in Haliburton with the Juniors team defeating the Minden Juniors by a score of 7 to 6. The Haliburton Junior team has an impressive record of only one loss so far this season. In Wilberforce on Wednesday the Haliburton Seniors defeated the home team 16 to 7. Wendy Roberts and

Betty Whiteway shared the pitching duties for Haliburton.

This weekend in Minden the annual tournament gets underway. There will be 2 local teams, one from Haliburton and one from Minden. The organizers are hoping for 8 to 10 other teams to participate. The games will start Saturday

morning and continue into Sunday and with good weather ordered it will be a great spot to improve your tan and see some exciting baseball.

Standings at the weekend were: Haliburton Juniors 30, Minden Seniors 24, Haliburton Seniors 18, Minden Juniors 11, Gooderham 10 and Wilberforce 7.

Pirates and treasure summer treats

submitted

Pirates and make believe treasure have been seen at Archie Stouffer School recently.

They are part of the Minden Activity Centre which is operated by a group of enthusiastic and dedicated volunteers. Carol Emmerson, Lyn Raback, Shannon Harding, and Wendy Harding have co-ordinated fun-filled days with unique activities on Mondays, Wednesdays and Fridays. The municipality of Anson, Hindon and Minden funds this project and Archie Stouffer School has donated the space.

There are three special events being brought to the centre by C.H.A.C.E. Place. Messy Crafts day was held on July 12, Field Day is on July 19 and Puppetry on August 16. Other activities scheduled are papier mache, fashion shows, mobile making and sports.

All children between the ages of six and twelve are welcome at the centre in July, Monday, Wednesday and Friday 10:00 a.m. until 1:00 p.m. and in August 10:00 a.m. until 3:00 p.m.

Moms and tots and teenagers please drop in and volunteer your hidden talents.

For more information contact Carol Emmerson, 286-1230.

Mohawks split pair

The Minden Mohawks Pee Wee soccer team entertained the Ennismore Mosquito team at home July 6th.

The visitors completely dominated play in the first half and the home team was fortunate to be only trailing by one goal to nil at half time.

With a crisp passing game, good positional and cross field play, the visitors

added two further goals before Stephen Freeman put Minden on the score sheet with a long high shot from the edge of the penalty area. Ennismore added a further goal before Justin Gentle scored the second goal for Minden with a lob shot over the head of the advancing Ennismore goalkeeper.

Greg Miller playing in for him, the unaccustomed position of centre played a strong game throughout for Minden.

The Pee Wee Mohawk team played Huntsville away on July 4th.

Minden opened the scoring in the eighth minute on a low shot by Dereck Allison from just inside the penalty area. The home team equalized in the twentieth minute and went ahead nine minutes later when a lack of communication between two of the Minden defenders resulted in a soft shot crossing the goal line.

After 35 minutes a long high shot from Stephen Freeman produced the second goal for Minden, a few minutes later, the same

player narrowly missed another goal with a similar type shot.

Huntsville had a chance to take the lead shortly before the first half ended when they were awarded a penalty shot following a foul by a Minden player but

failed to capitalize on the opportunity by shooting well wide of the goal.

Minden started the second half on a high note, Dereck Allison taking the ball at mid-field and beating several opponents before scoring with a low, well-placed shot. Dereck Moore added to the score in the

eighth minute with a high shot and some twenty minutes later he again fired a high shot at the Huntsville net which the goalkeeper failed to catch cleanly, giving up a rebound and Justin Gentle scored to give Minden a 5-2 lead.

Minden appeared to relax with this three goal lead and were scored upon twice, the first from a high shot and the second on a breakaway.

In the last ten minutes, Huntsville applied great pressure in an attempt to obtain the equalizer, the Minden defence managed to prevent any further scoring mainly because of the work of Greg Miller who broke up several of the Huntsville attacks and Hunter Obee in the Minden net who made two excellent saves in the closing minutes to preserve the victory for Minden.

Weather conditions may have resulted in the cancellation of the Stanhope Air Show this past weekend, but on the ground planning went ahead as usual. The airport committee had prepared the usually tasty beef barbeque for the day and found, to their delight, that many people did show up for the food. Those who partook of the meal helped the committee cover some of the income lost by the cancellation of the show. Eleanor Harrison, a volunteer for the Sunday event, admires the almost ready roasts as they turn on the spit. With her are airport committee members Gunter Wolm, left and Roger Wood.

Water levels report

The stored water in the Haliburton Lakes averaged 89.3% of maximum on July 8, which was about 4.5% greater than the ten year average. Only a small increase was made early in the week to offset

evaporation losses downstream, but later in the week, more was required. On Thursday July 11, the Otonabee river flow from the Kawartha was cut to the minimum to help stop the decline that was occurring. By July 12, these measures seemed to be working but 30 degrees Celsius temperatures are predicted for the weekend, July 13, 14. It has been nearly three weeks

without a significant overall rain.

This is the time of year for these large losses and the

steepest declines of the lake levels are like to occur in the

next few weeks.

Lake Simcoe-Couchiching too is declining at about its normal rate with only very modest flows being discharged to the Severn River.

DRUNK DRIVING KILLS!

Will alcohol claim you as yet another victim of escalating statistics? Each year, the scene is the same. Friends gather together, and will have a drink or two...or three. Then it's time to go home. Whether around the block or long distance, the effect of even one drink makes you a threat to yourself and others!

Reflexes become sluggish and judgement is impaired. In short, you become a potential killer as soon as you get behind that wheel. This summer, if you drink, use your head. Don't drive. If a friend has had one too many, encourage him to find another way home. Don't let your celebrating lead you down a dead end street..... permanently!

Summer program keeps seniors busy

by Katherine Hodgson
McMahon

The summer programme has been underway for three weeks at the Drop-In Centre. Shuffleboard has been organized for Monday and Tuesday mornings. It is held in Head Lake Park at 10 a.m.

Everyone who participates is guaranteed two games/morning. Partners are drawn by lots. The convenor, Don Sinclair and Co-Convenor May Eldridge are willing to instruct any newcomers to the game. There is still room in the schedule for more to participate - Come out and join the fun!

Another event held in the park is horseshoes on Tuesday mornings at 10 a.m. There is a small group of dedicated players who would like to be joined by

anyone with an interest in the sport.

The afternoon programs commence at 1:15 p.m. They are - bridge on Monday, bingo on Tuesday, movies on Thursday and cribbage on Friday. Thursday, July 18th's movie will be Ghandi and on Thursday, July 25th the movie will be Meet Me In St. Louis. This program is offered thanks to the generosity of Halco Audio-Visual (donate use of movie and VHS) and Black's Home Hardware (donate use of new colour t.v.).

All of these programs are run by volunteer convenors. They are a loyal, hard-working group. There is always a need for more volunteers and an immediate need for a fourth person who would be willing to call the bingo numbers one Tuesday afternoon per month. A person

willing to help take money, sell the specials' cards and call out the numbers from cards of those who have bingo, would also be appreciated. At present the job is handled by Barb Nicholls who would greatly appreciate a helper.

A trip to the Frost Centre and Algonquin Park will be held on July 25. Lunch will be at Canoe Lake Restaurant and stops will be made in the park to visit the Wildlife Museum and Logger's Exhibit. This is a day-trip departing from Haliburton County Home Support Services Drop-In Centre at 9 a.m. and returning to the centre at approximately 5:30 p.m. Cost will be \$13.00/person or \$25.00/couple.

For more details and to register please contact Katherine Hodgson McMahon at the Drop-In Centre at 457-2171. (Limit of 24 persons - First come first served!)

Some interest has been shown in a music program. As a result of this interest we are looking for a piano - perhaps someone has one they would like to donate to us.

All older adults (55 plus) and any disabled person(s) are welcome to participate in any of these programs. Drop in and visit the centre on Maple Street, Haliburton (opposite Emmerson's Lumber). The hours are 9 a.m. - 4 p.m. Monday through Friday.

Kickers lose

The Haliburton Dixie Lee soccer team lost their fifth game of the season on Sunday in Minden at the hands of Bracebridge Juniors. Playing at Archie Stouffer Elementary School field, the host club was defeated 4-2.

At the beginning of the season Haliburton beat

the Bracebridge team for one of their three victories of the regular season.

On Sunday, Dixie Lee went ahead 2-0 on goals by Tim Davies and Mike Hatkoski but the Juniors evened the score late in the first half on goals from corner kicks.

In the second half, the visitors added a pair of goals to gain the 4-2 win.

The Dixie Lee team will be playing out of town for the next two games beginning with a game Sunday, July 21, against the Muskoka Sun.

The Minden Lake Ratepayers Association recently made a donation to the County Town Museum in Minden. Museum committee chairman John Hulbig, left, accepted the cheque for one hundred dollars from association president Bern Berry and secretary Doreen Berry. Bern also suggested that other lake associations in the area might be interested in matching the Minden Lake donation.

Legion carnival a week away

by Gerald Irish

The forty-second annual Legion Carnival is rapidly approaching. July 23 and 24 should be very busy days in Haliburton. Entries for the parade on Wednesday evening are coming in rapidly.

So far, four bands have responded affirmatively. All youth camps, resorts, businesses, service clubs and community organizations have been requested to enter floats in the parade. The response so far has been very good.

Carnival Chairman, Comrade Jack McDonagh and his committee have been very busy and have put many hours into the organization of this year's carnival and it promises to be one of the best ones yet.

"Bandana", the popular country and western group once again packed the Club Room on Saturday night, July 13. This group was brought back to the Legion by popular demand.

Carnival draw tickets were sent out to members.

So far we have many of them back. If you have sold your tickets, please return them and your money to the Legion. If for some reason you are unable to sell your tickets, please get them back to the Legion as soon as possible. I'm sure they can be sold during the Carnival days.

Watch the bulletin board in the Club Room for an announcement regarding a proposed trip to Nashville, Tennessee on the Thanksgiving weekend. It looks like a great time could be had by all who plan to go. I will have more on this later.

We have had many enquiries regarding entertainment in the Club Room on Saturdays. Yes, we plan to have entertainment every Saturday night during the summer months.

We have been honoured to be requested to host the Zone F4 Drumhead on August 11th. All Legion branches in our Zone will be visiting Haliburton on that day.

sir sandford fleming college

THE COLLEGE WITH A FUTURE IN MIND...

CALL FOR PROPOSALS

Sir Sandford Fleming College is seeking proposals from aggressive companies to develop a promotional campaign for the College.

The successful company may also be invited to implement their recommendations by providing creative and project services on an on-going basis as required.

Proposal documents and specifications will be available on request from the address below after July 15, 1985.

Experienced firms are invited to submit a proposal in an envelope, clearly identified as to contents, no later than 1600 h, August 14, 1985 to:

Sir Sandford Fleming College
526 McDonnell Street
Peterborough, Ontario
K9J 7B1

Att: Sandy Lawrence, Purchasing Officer.

Further information may be obtained by writing or by calling the above office at (705) 743-5620, Ext. 300.

The lowest or any proposal not necessarily accepted.

Did you know?

by Bambi Gilder

Did you know ... that our centre has passport application forms for both adults and children?

Each time you apply for a passport you must submit a completed and signed application form; evidence of Canadian citizenship; have the form signed by an eligible guarantor; provide 2 signed photographs; submit any Canadian passport issued to you within the last 5 years, along with the current passport fee which is now \$21.00.

If your application is in order, a passport will be sent from Ottawa by mail within 2 weeks of the day the application is received, however, a passport may be obtained from a Regional Office in a

shorter period of time. There is a list of Regional offices in the application form.

Your County Information Centre has many other forms that you may need and if we don't, we can advise you as to where you may obtain them.

To receive information on social, health, governmental and environmental subjects, why not drop in to our office or give us a call at 457-2733. We are open weekdays, 10:00 a.m. - 4:00 p.m. and are located in the

Drag River Municipal Building (across from Emmerson Lumber) in Haliburton.

And remember, you will never know the answer, until you ask the question!

CORPORATION OF THE TOWNSHIP OF STANHOPE PUBLIC NOTICE

TAKE NOTICE that the Council of the Municipal Corporation of the Township of Stanhope proposes to enact a by-law to stop-up, close and convey to the abutting property owners, those parts of the original allowance for road set out and described as follows:

FIRSTLY: All and Singular that certain parcel or tract of land and premises situate, lying and being in the Township of Stanhope in the County of Haliburton and being composed of part of the original allowance for road along the shore of Big Hawk Lake, lying in front of part of Lots 18 and 19 Concession XIV and being more particularly described as Part 1 on a Plan deposited in the Registry Office for the Registry Division of the County of Haliburton as Plan 19R 3212.

SECONDLY: All and Singular that certain parcel or tract of land and premises situate, lying and being in the Township of Stanhope in the County of Haliburton and being composed of part of Lots 18 and 19 Concession XIV designated as Road Allowance on Registered Plan 182 and being more particularly described as Part 4 on a Plan deposited in the Registry Office for the Registry Division of the County of Haliburton as Plan 19R 3212.

A COPY OF THE PLAN OF SURVEY as noted may be viewed at the Township of Stanhope Municipal Office during normal working hours.

THE PROPOSED BY-LAW will come before the said council for consideration at its regular meeting at the Municipal Office in the Township of Stanhope on the 7th day of August, 1985 at the hour of 11:30 a.m., and at that time, the Council will hear in person or by his counsel, solicitor or agent, any person who claims that his land will be prejudicially affected and who applies to be heard.

DATED: July 2, 1985.

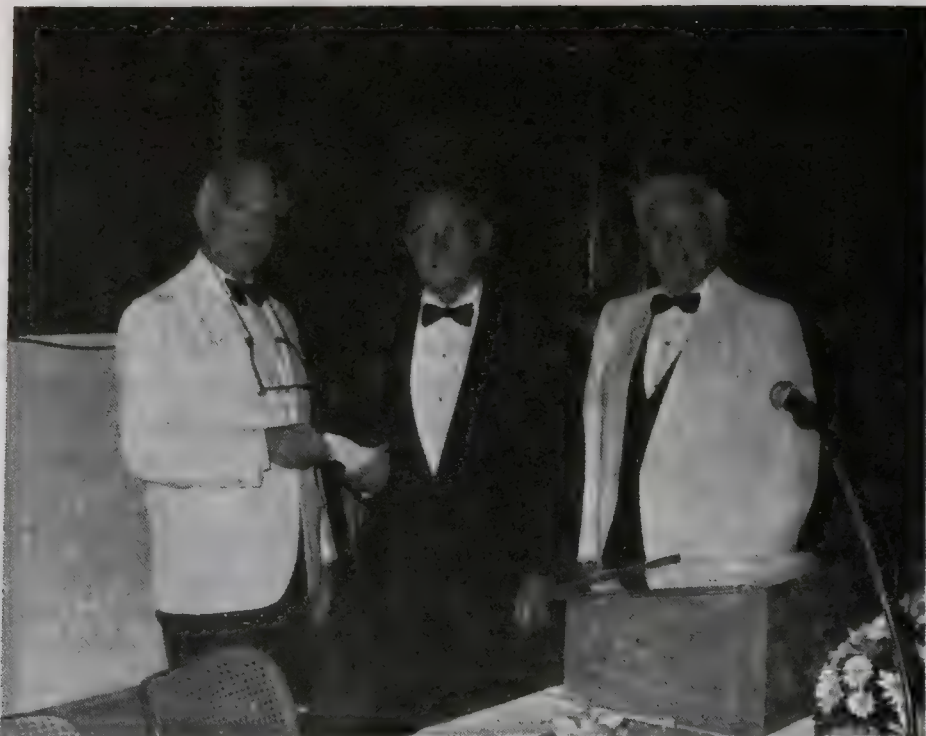

Gerald C. Bain, A.M.C.T.,
Clerk of the Corporation of the
Township of Stanhope, R.R. 1,
Haliburton, Ontario KOM 1S0.

\$25,000 has been raised by Freemasons of the Victoria District AF & AM., for the CatScan campaign. Donations from lodges throughout the district, including the lodges in Minden, Haliburton and Kinmount, were involved in the fund raising effort. The presentation of the donation was made at a special dinner held recently in Lindsay. Judge George Inrig, left, chairman of the Victoria County Fund Raising effort, accepted the cheque presented by District Deputy Grand Master Gordon Henry, centre. Also in attendance for the presentation was the Grand Master of Canada, Dr. Ronald E. Groshaw. The donations raised by the Minden and Haliburton lodges will be credited to the Haliburton County campaign.

Running a lean farm

- Ag report -

by Bill Baxter

The market-place today has done a pretty good job of "trimming the fat" from farm production. In fact, it has trimmed not only the fat, but some muscle and bone as well.

Apparently we, as farmers, can't control our losses to the market-place, but we do have some control over the costs of our inputs. Not that we can dictate the price of fertilizer or supplement, but we can make sure we get the best use from our inputs. In this way, we get more dollars returned for each dollar spent on our variable inputs.

We can only do this if we change "educated guesses" to numbers. Instead of guessing at yields, we measure them. Instead of guessing at requirements, we measure them. When we have numbers, we can see changes and make a positive response.

Part of the key to this approach is Agri-Food Laboratories. Located in Guelph and run by Griffith Laboratories, this lab is available to Ontario farmers for soil, leaf and feed testing at nominal cost. The Ontario Ministry of Agriculture and Food subsidizes these functions at this lab facility. More information is available from our office.

Secondly, we have to measure our production. Whether we are producing meat, milk or cash crops, we need to measure and record what we produce. Produce can be measured by the box, bale, bushel or tonne. Live-

stock performance requires scales. Crops may need a moisture tester, but whatever tool we use, we need a pen and a book to write it down and keep the record from year to year.

We need to know that, if we make a change in input, we are, in fact, getting more return to justify the change.

Suppose, for example, that a seed corn dealer has a "hot, new variety". (I guess that every one of them has a new winner just about every year). The only way we're going to know if he's right is to measure the dry bushels it will yield in comparison to other varieties we are growing. It is important to measure performance.

Then we need to measure our inputs. A soil test tells us not only what nutrients the soil contains, but what the plant requires as well for a given level of production. Soil test kits are available

from the Agricultural Office. Measuring the response tells us whether we've done things right, or whether we need to try something different next year.

Just as it makes sense to measure soil content before adding fertilizer, it also makes sense to measure the nutrient content of feeds before adding supplements. So a \$17 to \$25 investment in a feed analysis is money wisely spent.

Farm management is more than bookkeeping. Good farm management is what makes farming interesting. We'd be glad to talk to you about making better use of the tools of the trade.

Milk recording systems united

Effective July 1, 1985, the Ontario Dairy Herd Improvement Program and the Record of Performance (R.O.P.) Milk Recording Services were integrated. An agreement between Agriculture Canada and the Ontario Dairy Herd Improvement Corporation consolidated the milk recording systems in the Province.

Under the three-year agreement, all dairy herds enrolled in R.O.P. in Ontario will be transferred to the D.H.I. Program. The Dairy Herd Improvement Corporation will offer employment to all R.O.P. field inspectors and supervisors.

The restructuring of milk testing under these two Programs should pass on more efficiencies to producers and further improve the dairy industry. The Dairy Herd Improvement fees will be lower than those that would have been charged for R.O.P. if Agriculture Canada was to meet its cost-recovery target level for this Program.

Current R.O.P. clients will also receive more information and enhanced services under the new system.

Farmers tour local u-pick operation

by Ernest Hills

Members of the County Farmers Association were treated to a visit of the strawberry plantation of Bert and Cathy Short, for the monthly meeting held July 9. The Shorts manage the only pick your own operation in Haliburton County and are located on Highway 121, approximately five miles outside of Minden, across from the Bethel Church Road.

Considerable planning and careful consideration is evident in the long arcing rows, designed for maximum soil conservation during the early cultivation stages. Bert and Cathy used only certified, disease resistant stock to establish the plantation, where they cultivate three varieties of strawberry.

Cathy Short described the three varieties, referring to Red Coats as her best table variety, Sparkle as a particularly good berry for freezing, and Vesper as the latest berry they grow. Regardless of their individual attributes, the writer will attest to the delightful flavour of each in the crucial hand-to-mouth taste test.

Both Cathy and Bert Short indicated their overall satisfaction with the pick your own operation, citing a generally co-operative and informed clientele. They also employ three young people during the harvest period to assist in management and crowd control, for an organized and productive season.

The courage and determination of the efforts of Bert and Cathy Short are paying dividends now as a successful agricultural undertaking within our farm community. The County Farmers Association wishes to express their thanks to the Shorts for hosting the meeting and sharing their insights into this particularly delightful topic. Congratulations to the Shorts on the success of this marvellous undertaking.

Farm notes

This year at the Haliburton County Fair the Farmers Association is working in conjunction with Miriam Barnes, who is co-ordinating efforts to establish a display of pioneer/rural skills. It is hoped that the display will include craft making,

pioneer skills, and such food processing techniques as butter making, cheese making etc. Anyone within the farming community who possess such skills, and who would like to participate in the display, are asked to contact Miriam Barnes at 286-3056.

Included within the theme of the display will be a petting zoo, consisting of the small varieties of farm livestock and a display by the farmers market group. This will be a special display and anyone within the Haliburton County Farmers Association who is interested in selling their fresh produce or crafts, is asked to contact Cathy Short at 286-2865 before

August 3.

The fair remains a showpiece for Haliburton agriculture so let's get behind this effort and make it a great success.

The Haliburton Highlands Goat Society is pleased to announce they will be hosting the annual meeting of the Ontario Dairy Goat Society on Saturday, October 19 at the community hall in Norland.

The meeting will include, in addition to the business agenda of the ODGS, a pot luck luncheon and a guest speaker. Further details will follow, but to the goat keepers in the area keep this date open. Everyone is welcome.

Brazilian ramblings

Greg Pearson is a Minden high school student who is spending a year in Brazil as part of the Rotary International youth exchange program. Greg, who will be returning home in a few weeks, offers our readers this interesting glimpse of his experiences in South America.

In the month of May, I took a Rotary organized trip all around Brazil. By use of a Brazilian airpass, which enabled me to fly all around the country for a specific period, I visited 8 different cities in the northeast, north, central and south regions of Brazil. The trip was excellent and of course, lots of fun with 42 other students.

Our first flight took us from Sao Paulo to Salvador - capital of the state of Bahia. Salvador had been through some very extensive flooding so we really didn't get a true picture of the city. What I did see, was a very old and poor city with a great deal of culture.

Originally from Salvador Samba, which is a carnival type music typical to Brazil. The elaborate costumes and exotic dances that are seen in a Brazilian carnival all come from the Biano's of Salvador.

Copoeira is also originally from Salvador. Capoeira is a Brazilian form of Martial Art that involves quite a few gymnastic manoeuvres. While in Salvador we saw a folkloric show with Samba and Copoeira demonstrations, which was exciting and very interesting to watch.

Our next stop was Recife, capital of the state Pernambuco. Recife is also a very old and historic city with many beautiful churches and museums. In Recife we took advantage of the white sand beaches, crystal clear blue water and high swaying palm trees. On a free day, some friends and I rented a handmade wooden sailboat with a burlap sail and went sailing, swimming and sunbathing off the coast. It was a great way to spend an afternoon.

We then flew up the coast to Fortaleza, the capital of Ceara state. As we got off the plane, the sun was shining, with a beautiful blue sky and it was 43 degrees C. Time for the beach!

Fortaleza also boasts some of the most beautiful beaches in Brazil, some of which have giant sand dunes before levelling out into the ocean. While at one beach we rented a small wooden ski about 2 feet long and a foot wide and rode them down the dunes. This proved to be lots of fun with quite a few spills.

Fortaleza also has very high quality local handicrafts which consist of handmade hammocks, table cloths, clothes and linen.

The city was very enjoyable and interesting.

The next stop was Belem, the capital of Para, which is one of the largest states in

Brazil. Belem is situated just 110 km south of the Equator and at the mouth of the Para River, which is an arm of the Amazon.

We soon noticed that in Belem, it rains everyday around 2:00. Sitting by the pool on the roof of our hotel we were able to get a good view of dark rain clouds moving in on the city. After about 10 minutes the clouds departed, leaving a blue sky behind.

While in Belem, we rented a boat and went out on the Para River. As we chugged by, close to the riverbank, we saw some river-people, in their small handbuilt canoes, fishing and swimming. The children were spending their time sliding down the mud banks and splashing into the water.

Our boat then stopped and we went for a walk in the jungle. As our path rounded a corner, we were confronted with a group of small children climbing palm trees to the top then sliding down them like oldfashion firehouse poles. After I took a picture of one little fellow, he slid down and asked if I wanted to try. A chance of a lifetime, I thought, and took him up on the offer. He gave me a small leather strap that went around my feet to hold them onto the tree better, and up I went just like I was born in the jungle! As my spindly little palm tree started to bend, I decided it was time to get down, so just as I'd seen the natives do, I loosened my grip and began to slide rapidly downward. About half way down I noticed I was getting some nasty friction burns, but it was too late to stop. When I reached the bottom I was definitely in some pain, which did nothing but put these young natives rolling around the ground, in fits of laughter as I danced around in agony!

I walked away with my hands and feet burning and my mind wondering what sort of a trick had been played on me. Like I said, "Chance of a Lifetime!"

As I hobbled through the rest of the hike, we encountered more youngsters who had baby boa constrictors, and pet monkeys, however they couldn't talk me into holding any of them.

The boat trip didn't turn out all bad as I saw many tropical birds and butterflies and I lay in the afternoon sun on the way back. For our three days in Belem, the sun was hot, and the temperature averaged 45 degrees C!

Our journey then took us to Manaus, the capital of the state Amazonas. Manaus is situated on the Amazon River, about 4 km from

where the River Negro flows into the Amazon River. This is better known as the "Meeting of the Waters". The River Negro is black and the Amazon River has yellowish-brown water, and the two don't mix for nearly 20 km. This phenomenon is thought to be the result of the difference in density and current. The River Negro is a much slower river than the Amazon, and at its mouth it appears to be held back by the immense wall of water. For kilometre after kilo-

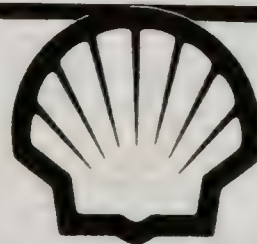

metre the Amazon presses the River Negro against the left bank, until eventually the larger river overcomes the smaller River Negro.

Again we rented a big boat and went to see the "Meeting of the Waters". We then got into large canoes, holding about 8 people and went into the "Igarape" which is an Indian word for "Canoe Path". These narrow rivers were a very interesting way to see the rain forest. We saw some very beautiful tropical vegetation and lots more exotic birds and butterflies.

After we returned to the big boat and headed back to civilization!

Brownies & Guides: fun for girls

Guiding began in England in 1920 and has since spread until there are 50 full member countries and 37 associate member companies.

Guiding began in Canada shortly after 1920 in the town of St. Catharines, Ontario.

On November 11, 1909 the first company met in the ballroom of the Welland House. Miss Daisy Wiley became the First Captain and Louise Bowerman was her Lieutenant. By the end of 1910 there were Guide companies formed in Toronto, Winnipeg and Moose Jaw. Vancouver followed soon after.

There have been many and varied changes in the last seventy years in the Guiding programmes. Guides now participate in many international events.

The Girl Guides were first established in Minden in March of 1967 under the leadership of Miss Mary Rankin. Following her as leader (Captains) until 1973 were Mrs. A. MacKenzie, Mrs. L. Burke (nee Rae Marie Hyde), Mrs. T. R. Brown. The Lieutenants were Mrs. R. D. Jarvis, Angela McCloskey (nee Dollo) and Miss Anne Cox.

A second Minden Guide Company was formed in May of 1973 under the leadership of Mrs. L. Burke. Her Lieutenant was Mrs. L. Kent. In 1973 the Captain was Angela McCloskey (now Mrs. Carl Strauss). Her Lieutenant was Mrs. D. Blakey. This company was cancelled in May 1975.

The First Minden Guide Company, however, carried on until 1979. The captains were Miss Anne Cox, Miss Betty Perugino and Eileen Edwards.

They disbanded in 1979 through lack of leaders. The Guides were formed again in 1980 under the leadership of Tammy Mace. Her Lieutenants were Diane Dollo and Jaimsy Taylor. In 1981 Kathy

Girl Guides
of Canada
Guides
du Canada

Klochhoff took over as Captain.

The First Minden Brownie Pack was formed in March of 1967. The Brown Owl was Louise Dollo (Neimann). During Louise's term, the chapel at Camp Adelaide in Haliburton was opened.

Because the pack was fairly new, they had no uniforms. To be able to attend the opening of the chapel, the Brownies had uniforms donated to them for the occasion.

From 1973 to 1975, Judy Purc was in charge with Sandy Freeman and Kathy Wrightman as Tawny Owls.

In 1976 Donna Dillon and Mrs. S. C. Brandon were Brown Owl and Tawny Owl. Follow-up leaders were Mrs. W. G. Barnes, Mrs. Ethel Muli and Mrs. Kathy Klochhoff. The assistants to the Brown Owls were Zelda Cooper, Rita Cavanaugh, Audrey Ireland, Shirley Beausoleil and Carol Emmerson.

In October 1983 we split into 2 packs again. Carol Emmerson and Muriel Bird are the leaders.

Leaders of the Brownie Pack are called Brown Owl. Her assistants are Tawny Owl and Snowy Owl.

The Commissioners during the years from 1967 - 1983 were Mrs. Sybil Hope, Mrs. Robert Freeman, Mrs. Sandy

Curry and Miss Cathy Boake.

Each year, both the Brownies and Guides try to spend one weekend at Camp Ade-

laide, east of Haliburton. this camp is owned and operated by the Girl Guides of Canada, Central Division. Here, the girls help prepare meals, learn how to work together, go on nature hunts and share thoughts and ideas.

Each year on February 22nd, we celebrate "Thinking Day", which is the birthdate of both Robt. Baden-Powell, the founder of Girl Guides, and his wife Olave Baden-Powell.

Each Christmas we try to donate goods for the Welfare baskets to be distributed in the Community. This teaches the girls to share with those who are less fortunate than themselves.

In 1979 the age groups in our programme changed allowing us to take younger Brownies and form a Pathfinder Group.

The Brownies range in age from 6 - 7, Guides 9 - 12, Pathfinders 12 - 15, Rangers,

Cadets and Junior leaders 15 - and up.

The following are our present day aims and what we hope to carry into the future. This is possible only if we have responsible leaders willing to do their part.

- Develop personal values and respect for self and others.

- Develop respect for nature and the order of things.

- Have new experiences and outdoor adventures.

- Make friends and have fun.

- Achieve a sense of well-being.

- Learn the importance of decision making.

- Function in small groups.

- Achieve a sense of pride in accomplishment.

- Acquire practical and leadership skills.

- Develop their ability and willingness to help.

Call 286-1288 — 9 a.m. - 4 p.m.

Minden Lake Ratepayers Association will be holding their first annual Potluck Supper from 2 p.m. on this Saturday, July 20 at the Berry's. Dinner will be served around 6 p.m.

A Vacation Church School, sponsored by St. Peter's Anglican, Carnarvon and Maple Lake United and Our Lady of Fatima R.C. Churches will be held July 22 to 26 from 9 a.m. to 12 noon in Stanhope Firefighters Hall (on North Shore Road just off Highway 35). The school is for children 3 years old and up. For further information, please call 286-1817.

Florence and Phil Robinson were mid-week visitors with Eileen and Paul Cockburn of Woodville and Grace and Ern Voycey of Gamebridge.

The women of St. Paul's want to thank everyone who supported their bazaar and bake sale on Saturday. The winner of the framed peacock made by Ron Redger, was Joan Swan.

Winners at Club 35 euchre party last Monday evening were - Door prize - Ken Campbell. Most Lone Hands - Gordon Ferguson (on a cut). High Lady - Betty Campbell. High Man - George Alsop and the other winners for the evening included: Mabel Trodd, Art Verbaan, Don Smith, Edith Russell and Audris Taylor.

Mr. Don Davidson and his aunts, Doris and Edith Smith of Minden Pines Cottages, enjoyed a visit from Don's brother Roy and Dianne Anson and children Scott and Kelly from Johnson City, New York. During their week-long visit many of this county's activities were much appreciated by their guests who are looking forward to a return visit in the near future.

Doris and Edith Smith were surprised to find a balloon hanging from one of their trees, thinking it was one released on Canada Day from the fairgrounds, they were amazed to find that it had travelled from the Boldt Castle Island, at the Thousand Islands, Ontario - quite a distance. The ladies were also a little startled on Sunday morning about 5 a.m. during the heavy thunder and lightning storm to observe a fireball bouncing along Orde Street in front of their property - a little scary to say the least!

Card party winners on Thursday at the museum card games were: Lone Hands - Vera Ward while

others were Shirley Elcome, Jeanne Sears, Sid Rowe and Jack Weeks.

Reggie and Michael Leaman and friend visited their grandparents Jeanne and Milt Sears recently.

Meat Matters - a short course at the Minden Community Centre on Wednesday, July 24 at 7:30 p.m. Demonstrations and door prizes - sponsored by Haliburton County Farmers Association and Minden Women's Institute.

The Ontario Fiddle and Step Dance Committee announced that Ivan Hicks and Maritime Express will be the guest entertainment on Saturday night at the contests in Bobcaygeon being held July 26 and 27.

Weekend visitors with Doreen and Alf Powell of Little Horseshoe Lake were Alex and Anita Kelly from Scarborough and Doug, Mary Lynn and Richard Coulter from Newmarket.

Don't forget movies for children every Thursday evening at the Library in Minden beginning 7:15 p.m. to 8:15 p.m. Admission free.

The Minden Agricultural Society is seeking help on their work nights, August 12 - 15, in preparation of the Haliburton County Fair. Any 'muscle power' available would surely be appreciated.

Our poem this week was submitted by Yvonne Guida and is rather appropriate for the times in which we are living.

The following recipe for a happy marriage was submitted by Jean and Cliff Lacey who certainly can attest to its success.

Recipe For A Happy Marriage

1 cup of consideration
1 cup of courtesy
2 cups of praise
2 cups of "milk of human kindness"
1 gallon of faith in the Good Lord...and in each other
1 reasonable budget
1 pinch of in-laws
Generous dash of co-operation mixed with the preceding ingredient
3 tbsp. of pur extract of I'm sorry
1 cup of confidence and encouragement
Several children (natural - adopted)
1 cup of blindness to the other's faults.
Flavour the mixture with frequent portions of recreation and a dash of happy memories. Stir well and remove any specks of jealousy, temper, or criticism. Sweeten with generous portions of love, and keep warm with a steady flame of devotion. Finally, remember this prayer: "Teach me this, O Lord, to know that true love is caring and sharing."

Damn Violence

The pen is greater than the sword,
God created the world
And made us equal
Or so he thought.
White, black, yellow and red
What does it matter
If one of us is cut
Do we not bleed
The same?
What is this thing called religion?
That makes men kill
For a cause
That brings nothing but ill
To all people
Where did God tell men to pray to Mecca
Then slit throats
Because we do not worship
The same.
Did God decree
Burn at the stake
All those who will not make
Confession - and believe
That only one way is right?
Wrong!
God gave us minds, that we might see
The way to eternal life will be
To love your brother
Not for race, nor creed nor colour
But for the beautiful world that God created
And for which he gave his only begotten Son
Take heed before it is too late
For us to abate
And create an inferno.

Yvonne

kid's korner

by Jean Lacey

Hi Kids!

Here is another puzzle for you with a word list. Look in the diagram of letters for the words given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip letters. Circle the words in the diagram and cross it off in the list.

It's as easy as that. Have fun!

Q: When is it socially correct to serve milk in a saucer?

A: When you give it to a cat.

Q: When do elephants have eight feet?

A: When there are two of them.

Q: What fish is a member of a barbershop quartet?

A: Bass.

Q: What fish do you find in a bird cage?

A: Perch.

Q: What would happen if you swallowed a spoon?

A: You wouldn't be able to stir.

senior league

by Bert Harrison

Dear readers, since they want my letter in by Friday noon, I start my next letter Friday afternoon. This is when our entertainers come again to lead us in a sing a long. Grace knows how to entertain and Norma the music to play, not coming next week, going to be away.

Mr. and Mrs. Charley Corbutt of Dwight some pleasure did seek, came down to visit Edith Welch one day last week.

At this time I would like to thank management and staff of Hyland Crest for their thank you letter telling me how much the people of Haliburton County enjoy my weekly letter. It gives me a little encouragement to try and do better.

We're pleased to have my sister and husband of Brampton, Ontario, come to visit me and attend a strawberry tea and bazaar. My sister won the lovely afghan, she also had her grandson Alexander all the way from Newfoundland.

After undergoing surgery Teddy Carr came back to us today. We surely missed you Teddy, when you were away. We have many residents on the sick list, Della Curry, Millie Wood, and many others too, some say it's just a bad cold, others say the flu.

Sorry to miss Chapel service Sunday night, I enjoy it so. But I had company coming and I just had to go. At seven o'clock another happy event took place on Hyland Crest's lawn. We imagined we could hear them singing long after they had gone. The ladies of Fatima and the Minden Anglican and the Haliburton Anglican churches, all joined together for this great big celebration. They entertained us royally. Rose Berry and Toos Reid, Toos is a great entertainer, she surely is indeed. We were much impressed the way the children sang, it sounded like the good old Happy Gang.

It was good to have Debbie Vaughan play and sing once more. She was with us in the summer of 1984. And for all the others that took part, we'd like to say thank you for a job well done and may God's blessing rest upon everyone.

Monday morning Doris

said all residents that were able to climb into the Hyland bus. For we are invited to Bracebridge Senior Citizens Home for lunch to sit at their tables, so we climbed into the Hyland bus, the weather it was fine. We had real good volunteers to keep us all in line. When we arrived at the Home around dinner time, a welcome committee welcomed us and sat us down to dine. After we had eaten, a tour of the Home did see, then we sat out on the lawn beside the tall pine trees. It was a lovely sunny day and a nice gentle breeze. A piper came and piped some tunes for us, he did so very well, without a bit of fuss, then about three they called us back into the Home for a cup of tea. Doris thanked the entertainers for treating us so fine, and invited them to visit us some time. We climbed back into the bus to wend our homeward way, we all enjoyed the trip so much it was a perfect day.

Tuesday morning Rev. Wicks of Minden Gospel church gave us a very interesting message on hope. Live by hope at any cost if you give up hope you're surely lost.

Edith Welch's son Gerald and wife came to Minden for a day or two. Come to visit Edith, took her out to lunch - a real nice thing to do.

Doris showed us movies Tuesday afternoon, that was really fine. "The Saddle-maker", "The Stampede Stop Over" and "Along The Timberline".

Wednesday night Earl Cooper's night of come and entertain, so they came back to us again. Earl brought his wife Eleanor and Kathy from the Frost Centre, we knew we were going to have good music as soon as they did enter. Earl plays real good violin music and also the mandolin, with Kathy playing her accordion. They played and the sister sang some good old hymns, we thank you for coming, please come back again.

Thursday the ladies from St. Peter's church came down to us today, brought and served a lovely lunch then for a sing song lovely music they did play. Thank you for coming we would like to say.

See you next week.

AT REST

STAMP Sidney (Sid)

- suddenly on Thursday, July 11, 1985 in his 40th year, beloved husband of Elsie Stamp, dear father of Gregory and Vincent, loving stepfather of Bart & Valerie (Mrs. John Wood), dear son of David & Gladys Stamp, beloved brother of Dorothy (Mrs. Brian Black) and Marilyn (Mrs. Dave Congdon). Resting at the Gordon A. Monk Funeral Home, Minden from 2-4:00 p.m. and 7 - 9:30 p.m. Sunday. Funeral service in the chapel on Monday, July 15th at 11:00 a.m. Interment Minden Cemetery. Memorial donations to the Cystic Fibrosis or Multiple Sclerosis Fund would be appreciated.

CARD OF THANKS

On behalf of the Stanhope Airport Committee, I would like to thank all of the residents of the county who came out to the airport, despite the weather, to attend the air show. We regret that we had to cancel the show because our performers could not leave their home bases to perform for us. However, those who attended enjoyed the barbecue beef, etc., and turned our "air show" into a family picnic. Many thanks to all our helpers on the field and in the food booths, they really worked hard. We already have promises for our performers for 1986, so look forward to next year and better weather.

Derek Rolfe,
Chairman

CARD OF THANKS

On behalf of Club 35 I would like to thank Francis Thomas Construction of Carnarvon, for his generous donation of time and material, for repairs to Club building. Thank you Francis.

Murray R. Daniels,
President, Club 35

Thankyou to all our friends and relatives for accepting our invitation to Jill and Billy's wedding and dance. You certainly made it a day to remember for all of us.

Bud & Gala Stamp

IN MEMORIAM

MISCIO: Petrol - In loving memory of a dear brother who passed away July 20, 1979.

No one misses him more than I
A brother I loved and cherished so much
(Memories are life's sweetest gift)

Sadly missed and always remembered by sister Nell and family.
